

# Ingka Group – Our financial year 2024

## Summary

INGKA™

At Ingka Group, financial year 2024 (FY24) was a year of courageously investing in the future to make IKEA more affordable, accessible, and sustainable. A time of slow economic growth and high interest rates is precisely the time to embrace the IKEA vision to create a better everyday life for the many people.

We want to side with the many people with thin wallets, to allow more people to meet their needs and dreams for **Better homes**. In FY24, our focus has been restoring affordability by lowering prices on thousands of products, totaling EUR 2.1 billion across markets. This came at the planned expense of lower top-line sales and a lower bottom-line result. Our revenue decreased by 5.5%, and we delivered EUR 0.8 billion in net income. At the same time, our store visitation grew by 3.3%, and online visitors by 28%, with over 4 million more online orders than the year before.

At Ingka, we think in decades, not quarters, to create a **Better company** now and for future generations. Being owned by a foundation lets us take a long-term perspective and invest so that purpose and profit always go hand in hand. Our profit can only be used in two ways: 85% of our net income is reinvested in the company; 15% is paid as dividend to our sole owner, Stichting INGKA Foundation, which has a charitable purpose to provide funding to the IKEA Foundation. The IKEA Foundation is an independent, strategic philanthropy that focuses its grant making efforts on tackling the two biggest threats to children's futures: poverty and climate change.

We strive to help shape **Better lives** for the many people and our co-workers, who are our biggest asset. We invest in skills development and inclusion, and have just passed our commitment to support the employability of over 2500 refugees and committed to support another 3000 refugees in the coming years.

In the updated ambition Net Zero and Beyond, with new verified targets, we further emphasised our goal of a **Better planet** for all. We are committed to reducing absolute greenhouse gas emissions by at least 50% by 2030 (compared to 2016). At the start of FY24, 79.2% of the electricity used across Ingka sites was from renewable sources. Ingka Investments is investing EUR 7.5 billion into renewable energy towards 2030, of which 4.2 BEUR has already been invested and committed.\*

Our upcoming Annual Summary and Sustainability Report (ASSR), available at the end of January 2025, will share data and examples related to all Value Creation Areas.

A big thanks to our co-workers, who support our strong vision and demonstrate our culture and values, and to our customers who shopped with us in stores and online. We are optimistic about another wonderful year at Ingka, with the IKEA vision as our biggest inspiration.

Glorious future!

Juvencio Maeztu  
Deputy CEO and  
CFO of Ingka Group

Financial year 2024 (FY24) runs from 1 September 2023 to 31 August 2024 <

\*Further information and figures will be published in January 2025's Annual Summary and Sustainability Report.
